Tenali, Guntur, A.P – 522324.

Summary

Java Developer with expertise in building scalable web applications using Java, Spring Boot, Spring MVC, and SQL. Proficient in REST API development, database integration. Strong understanding of MVC architecture and Agile methodologies. Passionate about delivering high-quality software solutions.

Technical Skills

Languages: Java, C, Python

Frameworks: Spring Boot, Spring MVC, Spring Data JPA

APIs: JDBC, JPA, REST APIs

Web technologies: HTML, CSS, JavaScript

Database: Oracle SQL, PL/SQL

Tools: Git, Linux (basic commands)

Education

B. Tech – Vignan's LARA Institute of Technology & Science | GPA: 7.92 / 10 | Guntur | 2020 – 24

Experience

Programmer Analyst Trainee – Cognizant, Chennai 06/ 2025 – Present

- Completed training in Java, Spring Boot, Spring MVC, Spring JPA, JWT, and SQL.
- Developed full-stack web application using Java and Spring frameworks and Agile practices.

Projects

Patient Appointment Management System (PAMS) 07/2025 – 09/2025

Description:

Developed a comprehensive healthcare appointment management system using Java and Spring Boot. The application enables patients to book, reschedule, and cancel appointments with doctors seamlessly. Implemented role-based access control for patients, doctors, and admins.

Key Features:

- User Registration & Login with authentication
- Appointment booking, rescheduling, cancellation, doctor availability management and scheduling.
- Integrated database operations using Spring Data JPA and MySQL
- RESTful API development for all modules and responsive UI using HTML, CSS, and JavaScript

Architecture:

Implemented MVC architecture with layered design: Controller, Service, Repository. Spring Boot is used for backend, MySQL for database and tomcat server.

Responsibilities:

- Designed and implemented REST APIs for appointment and user management
- Developed database schema and optimized queries using JPA
- Performed unit testing using JUnit and integration testing
- Collaborated in Agile environment with daily stand-ups and sprint planning
